Deck Plugs are available in 3 standard sizes to fit into the flute openings of metal decks. The standard make up matches commonly used head-of-wall construction.

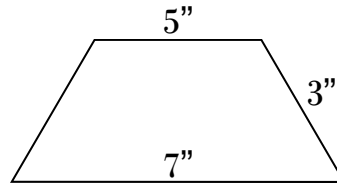

A. 1.5" thick

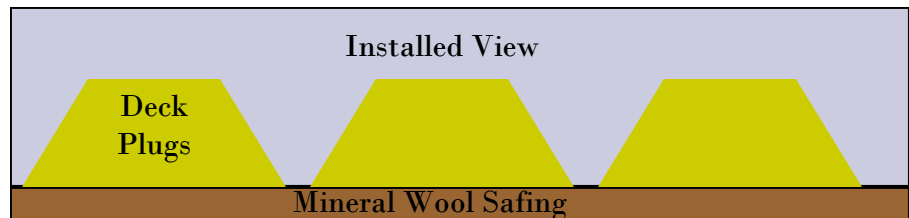

B. 1.5" thick

C. 3" thick

All sections are made 48" long. Density is 8lbs per cubic foot. Each plug should fit snugly with no gaps.

### Benefits of Mineral Wool Deck Plugs

- Each plug, used in conjunction with an approved intumescent spray mastic, provides a cost effective dual installation.
- Noise Reduction- Keeps noise from bypassing sound rated walls.
- Labor savings from the reduction in field labor to cut
- Minimizes field waste.
