

KNAUF INSULATION

## Did You Know?

G.I.S. Inc.  
Insulation systems

### PLUMBING-HEATING-REFRIGERATION-EQUIPMENT

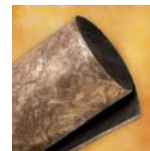

#### ALL OF OUR KNAUF FIBERGLASS INSULATION

- IS MADE WITH ECOSE TECHNOLOGY
- IS FORMALDEHYDE FREE
- IS LEED CERTIFIED

#### DID YOU KNOW THAT GIS

- HAS STANDARD GLASS ITEMS CURRENTLY IN STOCK
- HAS SAMPLES AVAILABLE
- PROVIDES DATA, SUBMITTALS AND MSDS OR THEY CAN BE DOWNLOADED FROM [WWW.GISINSULATION.COM](http://WWW.GISINSULATION.COM)
- OFFERS DELIVERY IN SOME AREAS.

### Knauf Insulation GREENGUARD Children & Schools Certified™

With indoor air quality a growing concern in all new, and renovation construction, we are pleased about our strong relationship with Knauf Insulation as they have more certified lines than any other insulation company. Knauf offers a variety of **Formaldehyde Free** Fiberglass Insulation products, as well as sustainable, low VOC products using green, plant-derived chemistry. Knauf is also the first insulation company to certify to the GREENGUARD Environmental Institute IAQ Standard.

## SERVICE

## UPDATED

KatieRose McLaughlin started working for GIS in January. She is helping with day-to-day operations as well as administration.

She moved to Pittsburgh last year, so her husband could obtain a Master's degree from Carnegie Mellon University. She and her husband were married in 2009, before moving to Pittsburgh. The couple lives in Squirrel Hill.

In addition to her administrative work, she maintains an active performing career, as both an actor and a dancer. She has worked all over the country, touring to Chicago, Washington DC and many other cities. She most recently starred as Esmeralda on Broadway in a production of the *Hunchback for Notre Dame*.

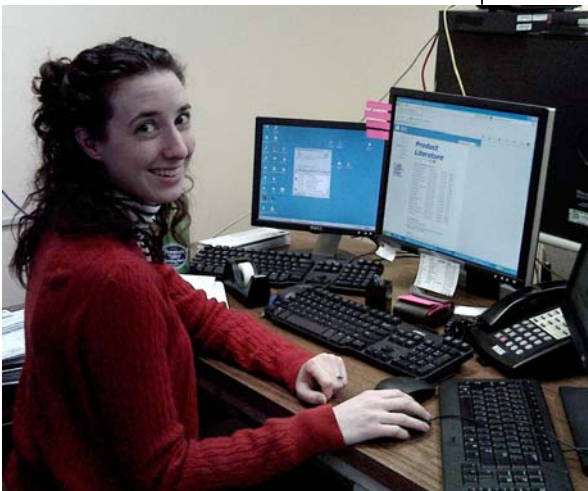

Welcome to GIS, KatieRose.

GIS has recently acquired a new vehicle. We are excited about being able to deliver **what** you need and **when** you need it, throughout the tri-state area and beyond.

With our new truck, we have the ability to see in live time where your delivery is located. We immediately tell you when the truck will arrive at your facility or jobsite.

We have made a number of changes to the GIS website, to make learning about us and our products even easier! We'd added pictures of our warehouse and facilities, directions to our location, as well as provided more information about our company. Please take some time to visit us at [www.gisinsulation.com](http://www.gisinsulation.com) and let us know what you think!

GIS is open 7a—5p  
Monday through Friday

### HOLIDAY HOURS

We will be closed  
Monday Memorial Day May 30  
Monday Independence Day July 4

## AEROCEL PIPING AND LINER THAT MEETS ASTM C534 TYPE I ASTM C534 TYPE II — ASTM C411

TEMPERATURE—**ASTM C411**  
REQUIRED  
MUST PERFORM AT 250° F R=4.1

CORROSION CLAIMS **ASTM C665**  
AEROCEL SHEET—ROLLS  
ARE COMPLIANT

THERMAL  
**ASTM C177 AND/OR C518**  
R=4.1

WATER ABSORPTION—  
VAPOR ABSORPTION  
**ASTM C 209 & ASTM C1104**  
PERFORMANCE PROPER-  
TIES REQUIRED  
MUST PERFORM AT 250° F

## Air Duct Systems

Aerocel® sheet makes an ideal choice for HVAC duct systems because it is a low density, light weight product that also serves as an efficient acoustical absorber and an excellent thermal insulator. With low moisture absorption and low water vapor transmission, Aerocel can be used both as an internal and external insulation for all kinds of ducting systems. To suit different decorative purposes, Aerocel® can also be coated with Aerocoat, acrylic latex emulsion paint.

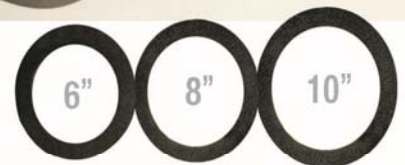

SUDDENLY CHILLED WATER INSTALLATIONS ARE FASTER AND EASIER

### Go Thick.

Up to 4" thick. Twice the size of the nearest competitor.

### Go Big.

Now offering 6", 8", and 10" pipe sizes. Biggest in the industry.

### HangerMate Threaded Rod Anchoring System

The HangerMate Threaded Rod Anchoring System is ideal for supporting Fire Sprinkler, HVAC, Refrigeration, General Piping and Electrical Systems. In steel, concrete or wood building materials, nothing works faster or better than HangerMate when it comes to saving you time and money.

The self-drilling HangerMate allows for fast and easy anchoring of threaded rods, and is designed to adapt easily to 1/4-20 and 3/8-16 thread rod. It is incredibly strong, due to its one piece all steel anchors, and is available for both horizontal and vertical applications.

## HANGERMATE

## CLUTCHER

### Hanger for ducts, pipe and other systems

- Eliminates the need to stock pre-cut cable
- Tapered bore design for fast and easy installation
- Easily adjust hanging height by hand
- Extremely strong patented design
- Available in a variety of sizes for different load weights
- Items can be hung at angles up to 60° from vertical
- Lightweight design reduces the risk of on-site accidents

For more information about the HangerMate Threaded Rod Anchoring System or Clutcher, or to place an order please call or email us GIS at 800-447-4678 or [info@gisinsulation.com](mailto:info@gisinsulation.com)
