

RECYCLED RUBBER PRODUCTS

Field Drain Covers

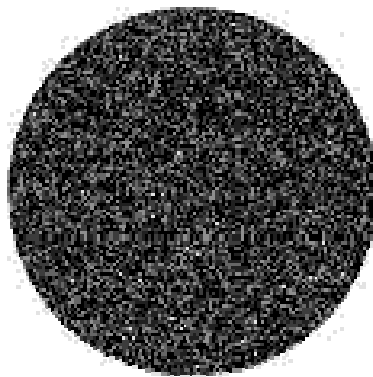

The drain covers come in green or black and are 37" squares or 30" circles. They cover hazardous iron field drains and utility boxes. Designed to allow water to flow through and remain not skid, these covers diminish the risk of injury to players and spectators alike.

BEFORE

Heavy Duty On-Deck Circle

60" diameter x 3/4" Black recycled rubber mat with tapered edge. It is an option to have them painted with team logos and names.

The one on the left is a blank black on deck circle that cushions the batter and prevents other players in the way of practice swings.

The picture on the right is GIS on-deck circle used by the Oakdale Youth League here in Western Pennsylvania. Thanks to Team Manager Mike Claus for his support.

Batter's Box Foundation Mats

32" x 40" x 3/4" recycled rubber mats. Ideal for Little League through adult fields. Eliminates deep holes in box areas. Saves maintenance. Provides good footing. Simply dig down 3-4 inches, drop in the mat, cover with dirt and you're ready to play.
